Education

RV College of Engineering   **Sep 2023 – Sep 2027**
B.E. in Computer Science (CGPA: 9.13)   *Bengaluru, Karnataka*

Jawahar Navodaya Vidyalaya, Udupi   **Aug 2021 – May 2023**
12th Grade (Percentage: 89%)   *Udupi, Karnataka*

Projects

Hostel Management System   **Feb 2025 – May 2025**

— Developed a comprehensive **Hostel Management System** for managing student-admin interactions.
— Built using **React**, **Spring Boot**, and **MySQL**.
— Implemented **role-based access** for **admin** and **student**.
— Admins can **add**, **update**, and **delete** student records.
— Students can **submit complaints** and **send leave letters**.

Amazon Clone   **Dec 2024**

— Built the frontend structure of an Amazon-like website using **HTML** and **CSS**, including homepage layout, navbar, and product grid.
— Used CSS Flexbox and Grid to design a responsive UI mimicking Amazon's shopping interface.

Employee Management System   **Jun 2024 – July 2024**

— Developed an Employee Management System, enabling users to add, delete, and update employees seamlessly.
— Implemented project using Java Spring Boot and HTML.
— Managed data storage and retrieval with MySQL.

Technical Skills

Languages: C, JavaScript, Java, SQL, HTML
Developer Tools: VS Code, Eclipse, Postman, Git, Arduino IDE
Frameworks: Spring Boot, ReactJS
Soft Skills: Problem Solving, Critical Thinking, Time Management

Achievements

— Member of the **Coding Club**, RV College of Engineering.
— Achieved a **Codeforces rating of 1221** (Pupil).
— Reached a **LeetCode rating of 1609** (Top 21.98%).
